Executive Summary

Results	Synopsis
Conversion Funnel	The total conversion rate stands at 82%, with shoppers who viewed items, added them to their cart, and completed a purchase. Specifically, 29% of users added items to their cart after viewing them, and 36% of those users went on to purchase the items in their cart.
Retention Rates	There was a decline in users between months 1 and 2, but user numbers have steadily increased from months 3 to 4.

Analysis	Description
Raw Data	Each row represents a user activity on the website, such as viewing a product page, opening the shopping cart, or completing a purchase.
Conversion Funnel	Using the "raw_user_activity" sheet, we created a funnel tracking unique users through the stages: "view," "shopping_cart," and "purchase."
Retention Rates	Using the 'purchase_activity' sheet, we identified unique users for each 'cohort_age' and calculated the monthly retention percentage.
